Report on Review of Condensed Consolidated Interim Financial Information

To the Shareholders and Supervisory Council of Open Joint Stock Company AK ALROSA:

Introduction

We have reviewed the accompanying condensed consolidated interim statement of financial position of Open Joint Stock Company AK ALROSA and its subsidiaries (the "Group") as of 30 June 2014, and the related condensed consolidated interim statements of profit or loss and other comprehensive income for the three month and six month periods then ended and cash flows and changes in equity for the six month period then ended. Management is responsible for the preparation and presentation of this condensed consolidated interim financial information in accordance with International Accounting Standard 34, "Interim Financial Reporting". Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information is not prepared, in all material aspects, in accordance with International Accounting Standard 34, "Interim Financial Reporting".

1. ACTIVITIES

The core activities of Open Joint Stock Company ALROSA ("the Company") and its subsidiaries ("the Group") are the exploration and extraction of diamond reserves and the marketing and distribution of raw and cut diamonds. The Company was registered on 13 August 1992 in the Republic of Sakha (Yakutia), which is located within the Russian Federation.

The Group operates mining facilities in Mirny, Udachny, Aikhal, Nyurba and Anabar (located in Eastern Siberia) and Arkhangelsk. Licenses for the Group's major diamond deposits expire between 2015 and 2031. Management believes the Group will be able to extend the licenses' terms after they expire.

As at 30 June 2014 and 31 December 2013 Company's principal shareholders are the governments of the Russian Federation (43.9 per cent. of shares) and the Republic of Sakha (Yakutia) (25.0 per cent. of shares).

The Company is registered and its principal operating office is situated at 6, Lenin Street, Mirny, 678170, Republic of Sakha (Yakutia), Russia.

The Group has seasonal working capital requirements as most of a year's supplies must be purchased in the second quarter and transported to their destination prior to the end of September as a result of the remote location of, and extreme climatic conditions at the Group's mining operations in the Republic of Sakha (Yakutia). The Group's major areas of operations can be reached by water only during a relatively short navigation period (May to September). During that time the Group accumulates stocks of consumables and production materials for production needs to last until the next navigation period. Additional factors contributing to the seasonality of the Group's operations include a decrease in ore processing capacity in summer as a result of routine maintenance of certain ore treatment plants.

2. BASIS OF PRESENTATION

The condensed consolidated interim financial information is prepared in accordance with International Accounting Standard 34 "Interim Financial Reporting" ("IAS 34"). This condensed consolidated interim financial information should be read together with the consolidated financial statements for the year ended 31 December 2013 prepared in accordance with International Financial Reporting Standards ("IFRS").

The Group companies incorporated in Russia maintain their statutory accounting records and prepare statutory financial reports in accordance with the Regulations on Accounting and Reporting of the Russian Federation ("RAR") and their functional currency is the Russian Rouble ("RR"). The Group companies incorporated in other countries maintain their statutory accounting records in accordance with relevant legislation and in the appropriate functional currency. The Group's condensed consolidated interim financial information is based on the statutory accounting records, with adjustments and reclassifications for the purpose of fair presentation in accordance with IAS 34.

The preparation of condensed consolidated interim financial information in conformity with IAS 34 requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and the disclosure of contingent assets and liabilities. The most significant estimates relate to valuation of inventories, investments, allowance for bad and doubtful accounts receivable, deferred taxation, reserve estimates used to calculate depreciation, pension and other post-retirement benefit costs. Actual results could differ from these estimates.

The official US dollar ("US\$") to RR exchange rates as determined by the Central Bank of the Russian Federation were 33.63 and 32.73 as at 30 June 2014 and 31 December 2013, respectively.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies followed by the Group and the critical accounting estimates in applying accounting policies are consistent with those disclosed in the consolidated financial statements for the year ended 31 December 2013 with the exception of income tax expense, which is recognised based on management's best estimate of the annual effective income tax rate expected for the full financial year.

New accounting developments

The following new standards, amendments to standards and interpretations became effective for the Group from 1 January 2014:

- IFRIC 21 Levies (issued on 20 May 2013 and effective for annual periods beginning on or after 1 January 2014);
- Amendments to IFRS 10, IFRS 12 and IAS 27 Investment entities (issued on 31 October 2012 and effective for annual periods beginning on or after 1 January 2014);
- Offsetting Financial Assets and Financial Liabilities Amendments to IAS 32 (issued in December 2011 and effective for annual periods beginning on or after 1 January 2014);
- Amendments to IAS 36 Recoverable amount disclosures for non-financial assets (issued on 29 May 2013 and effective for annual periods beginning on or after 1 January 2014; earlier application is permitted if IFRS 13 is applied for the same accounting and comparative period);
- Amendments to IAS 39 Novation of Derivatives and Continuation of Hedge Accounting (issued on 27 June 2013 and effective for annual periods beginning on or after 1 January 2014).

These standards, amendments to standards and interpretations did not have a material impact on this condensed consolidated interim financial information.

Certain new standards, interpretations and amendments to standards and interpretations, as disclosed in the consolidated financial statements for the year ended 31 December 2013, have been issued but are not yet effective and have not been early adopted by the Group. The Group is currently considering the implications of these new accounting pronouncements, their impact on its consolidated financial statements and the timing of their adoption.

4. GROUP STRUCTURE AND INVESTMENTS (CONTINUED)

As at 30 June 2014 and 31 December 2013 the percentage of ownership interest of the Group in subsidiaries is equal to the percentage of voting interest.

4.1. CJSC Geotransgaz and Urengoy Gaz Company Ltd.

On 27 September 2013, the Group signed an agreement with Rosneft Oil Company and certain of its affiliates (together "Rosneft") for the sale of the CJSC Geotransgaz and Urengoy Gaz Company Ltd. (the "Gas companies") to Rosneft for an aggregate sale price of approximately US\$'bln 1.38. Disposal of the Gas companies was expected to be completed by 30 April 2014.

Following the conclusion of this agreement and approval of the decision to dispose the Gas companies by the Company's Supervisory Council as at 31 December 2013 the assets and liabilities related to the Gas companies have been presented as held for sale. However, the transaction was not completed due to inability of the parties to fulfil the terms of the existing agreement, accordingly as at 30 June 2014 the assets and liabilities related to the Gas companies are no longer presented as assets and liabilities held for sale as management does not believe that their disposal within twelve months after the reporting date is probable.

4.2. Acquisition of OJSC Nizhne-Lenskoe

On 22 January 2013 the Group acquired a 51.0 per cent. interest in OJSC Nizhne-Lenskoe from the Government of the Republic of Sakha (Yakutia) for a total cash consideration of RR'mln 3,670. As a result of this transaction the Group acquired control over OJSC Nizhne-Lenskoe. The core activity of OJSC Nizhne-Lenskoe is exploration and extraction of alluvial diamond reserves and distribution of raw diamonds.

The fair values of assets and liabilities of OJSC Nizhne-Lenskoe at the date of acquisition were as follows:

Property, plant and equipment	12,726
Inventories	2,707
Available-for-sale investments	25
Investments in associates	423
Trade and other receivables	635
Cash	9
Deferred tax liability	(1,765)
Borrowings	(3,958)
Trade and other payables	(3,606)
Fair value of acquired net assets	7,196
Non-controlling interest measured as proportionate share of acquired net assets	(3,526)
Total purchase consideration	3,670

On 5 June 2013 the Group acquired an additional 49.0 per cent. interest in OJSC Nizhne-Lenskoe for a total cash consideration of RR'mln 3,330. As a result of this transaction the Group acquired 100.0 per cent. ownership in OJSC Nizhne-Lenskoe.

4.3. Disposal of controlling interest in OJSC MMC Timir

On 2 April 2013 the Group and Evraz plc signed an agreement to sell a controlling 51.0 per cent. interest in OJSC MMC Timir to Evraz plc for a total consideration of RR'mln 6,001. Consideration receivable included cash consideration of RR'mln 4,950 and outstanding loans in the amount of RR'mln 1,122 issued by the Group to OJSC MMC Timir before disposal of controlling interest. Consideration receivable was reduced by the amount of transaction costs incurred by the Group in the amount of RR'mln 71.

As a result of the transaction the Company lost an ability to control financial and operating activity of OJSC MMC Timir. Accordingly OJSC MMC Timir was deconsolidated since 2 April 2013. The remaining 49.0 per cent. interest investment in OJSC MMC Timir was recorded at fair value as an investment in joint venture.

4. GROUP STRUCTURE AND INVESTMENTS (CONTINUED)

4.3. Disposal of controlling interest in OJSC MMC Timir (continued)

The details of assets and liabilities of OJSC MMC Timir at the date of deconsolidation were as follows:

Property, plant and equipment	5,443
Available-for-sale investments	22
Trade and other receivables	67
Cash	57
Deferred tax asset	103
Trade and other payables	(6)
Net assets of deconsolidated subsidiary	5,686
Investment in joint venture recognised at fair value	2,237
Consideration receivable	6,001
Gain on disposal	2,552

4.4. Disposal of CJSC Irelyakhneft

In June 2014 the Group sold a 100 per cent interest in CJSC Irelyakhneft for a total cash consideration of RR'mln 1,600.

As a result of the transaction the Group lost an ability to control financial and operating activity of OJSC Irelyakhneft. The details of assets and liabilities related to OJSC Irelyakhneft at the date of disposal were as follows:

Property, plant and equipment	1,324
Inventories	90
Trade and other receivables	381
Cash	15
Trade and other payables	(352)
Net assets at the date of disposal	1,458

23. CONTINGENCIES, COMMITMENTS AND OTHER RISKS

(a) Operating environment of the Russian Federation

The Russian Federation displays certain characteristics of an emerging market. Its economy is particularly sensitive to oil and gas prices. The legal, tax and regulatory frameworks continue to develop and are subject to varying interpretation.

During the six months ended 30 June 2014, political and economic instability in Ukraine increased significantly. Possible deteriorating economic conditions may have an impact on management's cash flow forecasts and assessment of the impairment of financial and non-financial assets. Debtors of the Group may also become adversely affected by the financial and economic environment, which could in turn impact their ability to repay the amounts owed or fulfil the obligations undertaken.

Management is unable to predict all developments which could have an impact on the industry and the wider economy and consequently what effect, if any, they could have on the future financial position of the Group. Management believes all necessary measures are being taken to support the sustainability and growth of the Group's business in the current circumstances.

(b) Taxes

Russian tax and customs legislation which was enacted or substantively enacted at the end of the reporting period is subject to varying interpretations when being applied to the transactions and activities of the Group. Consequently, tax positions taken by management and the formal documentation supporting the tax positions may be successfully challenged by relevant authorities. Russian tax administration is gradually strengthening, including the fact that there is a higher risk of review of tax transactions without a clear business purpose or with tax incompliant counterparties. Fiscal periods remain open to review by the authorities in respect of taxes for three calendar years preceding the year of review. Under certain circumstances reviews may cover longer periods. As Russian tax legislation does not provide definitive guidance in certain areas, the Group adopts, from time to time, interpretations of such uncertain areas that reduce the overall tax rate of the Group. While management currently estimates that the tax positions and interpretations that it has taken can probably be sustained, there is a possible risk that outflow of resources will be required should such tax positions and interpretations be challenged by the relevant authorities. The impact of any such challenge cannot be reliably estimated; however, it may be significant to the financial position and/or the overall operations of the Group.

Amended Russian transfer pricing legislation took effect from 1 January 2012. The new transfer pricing rules appear to be more technically elaborate and, to a certain extent, better aligned with the international transfer pricing principles developed by the Organisation for Economic Cooperation and Development (OECD). The new legislation provides the possibility for tax authorities to make transfer pricing adjustments and impose additional tax liabilities in respect of controlled transactions (transactions with related parties and some types of transactions with unrelated parties), provided that the transaction price is not arm's length.

Management believes that its pricing policy is arm's length and it has implemented internal controls to be in compliance with the new transfer pricing legislation.

Given that the practice of implementation of the new Russian transfer pricing rules has not yet developed, the impact of any challenge of the Group's transfer prices cannot be reliably estimated; however, it may be significant to the financial conditions and/or the overall operations of the Group.

As at 30 June 2014 and 31 December 2013 the Group had tax contingencies. These contingencies are estimates that result from uncertainties in interpretation of applicable legislation concerning deduction of certain expenses for income tax purposes and reimbursement of the related input VAT. Management is not able to reliably estimate the range of possible outcomes, but believes that under certain circumstances the magnitude of these tax contingencies may be significant for the Group. Management of the Group believes that the exposure in respect of these tax risks is not probable, therefore as at 30 June 2014 and 31 December 2013 no provision for tax liabilities had been recorded.

(c) Legal proceedings

The Group is a party to certain legal proceedings arising in the ordinary course of business. In the opinion of management, there are no current legal proceedings or other claims outstanding, which could have a material adverse effect on the results of operations or financial position of the Group as at 30 June 2014.

(d) Insurance

The Group is assessing its policies for insuring assets and operations. At present, apart from the full insurance of movements of diamond inventory from the production location to the customers, very few assets and operations of the Group are insured and, in the instances where assets are insured, the amounts generally are not sufficient to cover all costs associated with replacing the assets.

(e) Capital commitments

As at 30 June 2014 the Group has contractual commitments for capital expenditures of RR'mln 6,829 (31 December 2013: RR'mln 4,898).

23. CONTINGENCIES, COMMITMENTS AND OTHER RISKS (CONTINUED)

(f) Restoration, rehabilitation and environmental costs

Under its license agreements, the Group is not responsible for any significant restoration, rehabilitation and environmental expenditures that may be incurred subsequent to the cessation of production at each mine, apart from the obligation to perform recultivation of certain disturbed lands and tailing pits in the areas of its operating activity. As at 30 June 2014 the Group recognised a provision for these future expenses in the amount of RR'mln 3,172 (31 December 2013: RR'mln 3,076).

24. RELATED PARTY TRANSACTIONS

Parties are generally considered to be related if one party has the ability to control the other party, is under common control, or can exercise significant influence over the other party in making financial or operational decisions as defined by IAS 24 "Related Party Disclosures". In considering each possible related party relationship, attention is directed to the substance of the relationship, not merely the legal form.

Related parties may enter into transactions, which unrelated parties might not, and transactions between related parties may not be effected on the same terms, conditions and amounts as transactions between unrelated parties.

Governments of the Russian Federation and the Republic of Sakha (Yakutia)

Governments of the Russian Federation and the Republic of Sakha (Yakutia) are the major shareholders of the Company. As at 30 June 2014 68.9 per cent. of the Company's issued shares were directly owned by the Governments of the Russian Federation and the Republic of Sakha (Yakutia). Also as at 30 June 2014 8.0 per cent. of the Company's shares were owned by administrations or 8 districts of the Republic of Sakha (Yakutia). Following the Extraordinary General Meeting of Shareholders in December 2013, the 15 seats on the Supervisory Council include 9 representatives of the Russian Federation (1 also is the Chairman of the Management Board) and the Republic of Sakha (Yakutia), 5 independent directors according to the Russian Corporate Law (3 of them are nominated by the Government of the Russian Federation, 1 was nominated by the Government of the Republic of Sakha (Yakutia), 1 was nominated by districts of the Republic of Sakha (Yakutia) and 1 member of the Management Board. Governmental, federal and local economic and social policies affect the Group's financial position, results of operations and cash flows.

Tax balances are disclosed in the condensed consolidated interim statement of financial position and in notes 8 and 13. Tax transactions are disclosed in the condensed consolidated interim statement of profit or loss and other comprehensive income, the condensed consolidated interim statement of cash flows and in notes 22 and 23.

Parties under control of the Government

In the normal course of business the Group enters into transactions with other entities under Governmental control. The principal forms of such transactions are diamond sales, electricity purchases and borrowings. Prices of diamonds sales are set by reference to price lists approved by the Ministry of Finance of the Russian Federation; electricity tariffs in Russia are partially regulated by the Federal Tariffs Service.

The amounts of balances and transactions with related parties under control of the Government are detailed below:

Key management compensation

The Supervisory Council of the Company consists of 15 members, including state and management representatives. Representatives of Governments of the Russian Federation (except for independent directors) and the Republic of Sakha (Yakutia) in the Supervisory Council of the Company are not entitled to compensation for serving as members of the Supervisory Council. Representatives of management in the Supervisory Council of the Company are entitled to compensation for serving as members of the Management Board of the Company.

Before 25 April 2013 the Management Board consisted of 20 members. On 25 April 2013 the Company's Supervisory Council made a decision to reduce the number of Management Board members to 13. As at 30 June 2014 and 31 December 2013 two of the Management Board members are also members of the Supervisory Council. Management Board members are entitled to salary, bonuses, voluntary medical insurance and other short-term employee benefits. Salary and bonus compensation paid to members of the Management Board is determined by the terms of "Remuneration Policy for the members of the Management Board" approved by the Company's Supervisory Council on 18 March 2012.

According to Russian legislation, the Group makes contributions to the Russian Federation State pension fund for all of its employees including key management personnel. Key management personnel also participate in certain post-retirement benefit programs. The programs include pension benefits provided by the Non-state pension fund Almaznaya Osen and a one-time payment from the Group at their retirement date.

Key management received short-term benefits for the three and six months ended 30 June 2014 totalling RR'mln 168 and RR' mln 596, respectively (three and six months ended 30 June 2013: RR'mln 396 and RR' mln 519, respectively).

Total current accounts receivable	1,918	1,647

Transactions with the Group's pension plan are disclosed in note 14.

25. SEGMENT INFORMATION

The Management Board of the Company has been determined as the Group's Chief Operating Decision-Maker (CODM).

The Group's primary activity is the production and sales of diamonds. The internal management reporting system is mainly focused on the analysis of information relating to production and sales of Diamond segment, however information relating to other activities (represented by several subdivisions of the Company and separate legal entities of the Group's all other business) is also regularly reviewed by the CODM. The Management Board regularly evaluates and analyses financial information derived from statutory accounting data net of intersegment operations between subdivisions of the Company, but including intercompany transactions between the legal entities included in the Group.

The Management Board evaluates performance and makes investment and strategic decisions based upon review of operating activity results (i.e. meeting production targets and monitoring of actual expenditures against budget allocated by production and sales of diamonds and other activities) as it believes that such information is the most relevant in evaluating the results. No specific measure of profit or loss is analysed by the CODM on entity by entity basis. The following items are analysed on the Group level and are not allocated between segments for the purposes of the analysis:

- finance income;
- finance cost;
- other operating income and expense;
- share of net profit of associates and joint ventures;
- income tax expense or benefit;
- non-cash items other than depreciation;
- total assets and liabilities; and
- capital expenditure.

The following reportable segments were identified:

- Diamonds segment production and sales of diamonds;
- Transportation;
- Social infrastructure;
- Construction activity;
- Trading;
- Electricity production; and
- Other activities.

25. SEGMENT INFORMATION (CONTINUED)

Information regarding the results of the reportable segments is presented below. Segment items are based on financial information reported in statutory accounts and can differ significantly from those for financial statements prepared under IFRS. Reconciliation of items measured as reported to the Management Board with similar items in these condensed consolidated interim financial information include those reclassifications and adjustments that are necessary for financial statements to be presented in accordance with IFRS.

26. FAIR VALUE OF FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk), credit risk and liquidity risk.

The condensed consolidated interim financial information do not include all financial risk management information and disclosures required in the annual financial statements; they should be read in conjunction with the group's annual financial statements as at 31 December 2013. There have been no changes in the risk management department or in any risk management policies since the year end.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an ordinary transaction between market participants at the measurement date. The estimated fair values of financial instruments are determined with reference to various market information and other valuation techniques as considered appropriate.

The different levels of fair value hierarchy have been defined as follows:

- Level 1 Quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to assess at the measurement date. For the Group, Level 1 inputs include debt instruments that are actively traded on the European and Russian domestic markets.
- Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. For the Group, Level 2 inputs include observable market value measures applied to loans and borrowings.
- Level 3 Unobservable inputs for the asset or liability. These inputs reflect the Company's own assumptions about the assumptions a market participant would use in pricing the asset or liability.

Recurring fair value measurements

The levels in the fair value hierarchy into which the recurring fair value measurements are categorised are as follows

	30 June 2014			31 December 2013

26. FAIR VALUE OF FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (CONTINUED)

The fair value of the following financial assets and liabilities approximate their carrying amount:

- Trade and other receivables;
- Other current financial assets;
- Cash and cash equivalents;
- Trade and other payables;
- Other current financial liabilities.

The fair values in Level 2 and Level 3 of fair value hierarchy were estimated using the discounted cash flows valuation technique. The fair value of floating rate instruments that are not quoted in an active market was estimated to be equal to their carrying amount. The fair value of unquoted fixed interest rate instruments was estimated based on estimated future cash flows expected to be received discounted at current interest rates for new instruments with similar credit risk and remaining maturity.

There were no transfers between Levels 1, 2 and 3 during the period. There were no reclasses of available-for-sale investments' losses from other comprehensive income into the profit or loss.
