Report on review of interim condensed consolidated financial statements

To the Shareholders and Board of Directors of OAO Raspadskaya

Introduction

We have reviewed the accompanying interim condensed consolidated financial statements of OAO Raspadskaya and its subsidiaries ("the Group"), comprising the interim consolidated statement of financial position as at 30 June 2012 and the related interim consolidated statements of comprehensive income, changes in equity and cash flows for the six-month period then ended and explanatory notes. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Financial Reporting Standard IAS 34, Interim Financial Reporting ("IAS 34"). Our responsibility is to express a conclusion on these interim condensed consolidated financial statements in accordance definancial statements based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*. A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.

Emphasis of matter

We draw attention to Note 1 to the interim condensed consolidated financial statements, which discloses a significant concentration of the Group's business with related parties.

Notes to the unaudited interim condensed consolidated financial statements

Six-month period ended 30 June 2012

1. Corporate information

The unaudited interim condensed consolidated financial statements of OAO Raspadskaya (the "Company") for the six-month period ended 30 June 2012 were authorized for issue in accordance with a resolution of the Board of Directors on 20 September 2012.

The Company is an open joint-stock company ("OAO") registered under the Russian law. The Company commenced operations in 1973. The registered office of the Company is 106, Mira Street, Mezhdurechensk, Kemerovo region, Russia. The Company's controlling shareholder is Corber Enterprises Limited (Cyprus) ("Corber"), a 50/50 joint venture set up by Adroliv Investments Limited (Cyprus) ("Adroliv") owned by the Company's management, and Mastercroft Mining Limited, a subsidiary of EVRAZ plc (UK) ("Evraz"). After share buyback (Note 10), Corber owns approx. 81.95% of the Company's shares. The Company's shares are traded on the Russian stock exchange RTS-MICEX.

The Company and its subsidiaries (the "Group") derive 98% of their revenues from sales of coking coal. Other revenue sources include sales of other goods, transport-handling and other services.

In the six-month period ended 30 June 2012, 22% of the Group's revenue was generated in transactions with related parties (Note 9).

2. Significant accounting policies

Basis of preparation

The interim condensed consolidated financial statements for the six-month period ended 30 June 2012 have been prepared in accordance with International Financial Reporting Standard IAS 34 *Interim Financial Reporting*. Accordingly, the interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual consolidated financial statements as at 31 December 2011.

The interim condensed consolidated financial statements are presented in US dollars (US\$) and all amounts are rounded to the nearest thousand (US\$000) except when otherwise stated.

Certain reclassifications have been made to unaudited interim condensed consolidated financial statements for the six-month period ended 30 June 2011 to conform to the current period presentation, namely, certain taxes have been reclassified from general and administrative expenses to the cost of sales.

Going concern

These unaudited interim condensed consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business.

The current economic conditions create uncertainty particularly over (a) the level of demand and prices for the Group's products; and (b) the exchange rate between the US dollar and the Russian ruble.

In the next 12 months, the Group expects to finance its operating and investing activities primarily by cash generated from operations. If necessary, management may postpone certain investment projects and capital repairs to provide the Group with sufficient resources to manage its cash and debt position allowing the compliance with the terms of loan agreements.

Accordingly, the Group continues to adopt the going concern basis in preparing these unaudited interim condensed consolidated financial statements.

Notes to the unaudited interim condensed consolidated financial statements (continued)

2. Significant accounting policies (continued)

Changes in accounting policies

In the preparation of the unaudited interim condensed consolidated financial statements, the Group followed the same accounting policies and methods of computation as compared with those applied in the consolidated financial statements for the year ended 31 December 2011, except for the revision of the existing standards:

Revised standard adopted in 2012

IFRS 7 - Disclosures - Transfers of financial assets (Amendment)

The amendment to IFRS 7 enhances disclosures for financial assets. These disclosures relate to assets transferred (as defined under IAS 39). If the assets transferred are not derecognized entirely in the financial statements, an entity has to disclose information that enables users of financial statements to understand the relationship between those assets which are not derecognized and their associated liabilities. If those assets are derecognized entirely, but the entity retains a continuing involvement, disclosures have to be provided that enable users of financial statements to evaluate the nature of, and risks associated with, the entity's continuing involvement in those derecognized assets.

The adoption of this amendment did not have any impact on the financial position or performance of the Group.

The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

3. Seasonality of operations

There are no significant seasonal effects in the business activities of the Group.

11. Loans and borrowings (continued)

Loans and borrowings by source (continued)

On 17 May 2007 the Group issued loan participation notes amounting to US\$300,000,000. The notes bore an interest of 7.5% per annum payable semi-annually and matured on 22 May 2012. To repay those notes and finance its operating activities, on 27 April 2012 the Group issued loan participation notes amounting to US\$400,000,000. The new notes bear an interest of 7.75% per annum payable semi-annually and mature on 27 April 2017. The terms and conditions of the 7.75% notes provide for certain covenants in respect of the Company and its subsidiaries. The covenants impose restrictions in respect of certain transactions and a financial ratio in respect of indebtedness and profitability. As at 30 June 2012 and for the six-month period then ended, the Group complied with all the covenants.

12. Commitments and contingencies

Operating environment of the Group

The Group is one of the biggest coking coal producers in Russia. Russia continues economic reforms and development of its legal, tax and regulatory frameworks as required by a market economy. The future stability of the Russian economy is largely dependent on these reforms and developments and the effectiveness of economic, financial and monetary measures undertaken by the government.

The Russian economy is vulnerable to market downturns and economic slowdowns elsewhere in the world. The global financial crisis has resulted in uncertainty regarding further economic growth, availability of financing and cost of capital, which could negatively affect the Group's future financial position, results of operations and business prospects. Management believes it is taking appropriate measures to support the sustainability of the Group's business in the current circumstances.

Taxation

The Russian tax, currency and customs legislation is subject to varying interpretations and changes, which can occur frequently. Management's interpretation of such legislation as applied to the transactions and activity of the Group may be challenged by the relevant regional and federal authorities.

Recent events within Russia suggest that tax authorities are taking a more assertive position in their interpretation of the legislation and assessments and, as a result, it is possible that transactions and activities that have not been challenged in the past may be challenged. As such, significant additional taxes, fines and penalties may be assessed.

Management believes that its interpretations of the relevant legislation are appropriate and that it has paid or accrued all taxes that are applicable. Where an uncertainty exists, the Group has accrued tax liabilities based on management's best estimate of the probable outflow of resources embodying economic benefits which will be required to settle these liabilities.

Contractual commitments

The Group was a party to executory contracts for the purchase of production equipment and construction works in the amount of US\$17,492,000 as at 30 June 2012.

Social commitments

The Group is involved in a number of social programs aimed to support education, health care and social infrastructure development in the towns where the Group's assets are located. In the second half of 2012 the Group plans to spend US\$4,502,000 under these programs.

Environmental protection

The Group may be subject to environmental claims and legal proceedings. The quantification of environmental exposures requires an assessment of many factors, including changing laws and regulations, improvements in environmental technologies, the quality of information available related to specific sites, the assessment stage of each site investigation, preliminary findings and the length of time involved in remediation or settlement. Management believes that any pending environmental claims or proceedings will not have a material adverse effect on its financial position and results of operations. Under the Plan on environmental protection for the years 2011-2015 authorized by management, the Group expects to spend US\$28,821,000 starting 1 July 2012.

Insurance policies

The Group maintains obligatory insurance policies required by the Russian law. The Group holds no insurance policies in relation to its major production facilities, or in respect of public liability.
