# Report of Independent Auditors

To the Board of Directors and Shareholders of JSC Gazprom Neft:

We have reviewed the accompanying interim condensed consolidated balance sheet of JSC Gazprom Neft and its subsidiaries as of June 30, 2008, and the related interim condensed consolidated statements of income for the three and six months ended June 30, 2008, and the interim condensed consolidated statements of changes in shareholders' equity and of cash flows for the six months ended June 30, 2008. We have also reviewed the related interim condensed consolidated statements of income and of cash flows for the six months ended June 30, 2007. These interim financial statements are the responsibility of the Company's management.

We conducted our review in accordance with standards generally accepted in the United States of America. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying interim condensed consolidated financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We previously audited in accordance with auditing standards generally accepted in the United States of America, the consolidated balance sheet as of December 31, 2007, and the related consolidated statements of income, of changes in shareholders' equity, and of cash flows for the year then ended (not presented herein), and in our report dated May 14, 2008 we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying interim condensed consolidated balance sheet as of June 30, 2008, is fairly stated in all material respects in relation to the consolidated balance sheet from which it has been derived.

#### 1. General

#### Description of Business

JSC Gazprom Neft (formerly OAO Siberian Oil Company) and its subsidiaries (the "Company") is a vertically integrated oil company operating in the Russian Federation. The Company's principle activities include the exploration, production and development of oil and gas fields, the production of refined petroleum products and distribution and marketing operations through its retail outlets. Export trade is conducted through a wholly owned subsidiary Gazprom Neft Trading GmbH, which operates as a trader for the Company's export sales.

OAO Siberian Oil Company ("Sibneft") was created by Presidential Decree Number 872 dated August 24, 1995. On September 29, 1995 Sibneft's charter was approved when the Government of the Russian Federation issued Resolution Number 972. The Omsk Registration Chamber officially registered Sibneft on October 6, 1995. In October 2005 JSC Gazprom completed its acquisition of a 75.68% stake in Sibneft, becoming a subsidiary of JSC Gazprom. On May 30, 2006 Sibneft was renamed into "JSC Gazprom Neft".

#### Basis of Presentation

The Company maintains its books and records in accordance with accounting and taxation principles and practices mandated by the Russian legislation. The accompanying interim condensed consolidated financial statements were derived from the Company's Russian statutory books and records with adjustments and reclassifications made to present them in accordance with accounting principles generally accepted in the United States of America ("US GAAP"). The Company uses the US Dollar as its reporting currency.

The interim condensed consolidated financial statements are unaudited and have been prepared in accordance with US GAAP for interim financial reporting of public companies (primarily Accounting Principles Board Opinion 28 ("APB 28") "Interim Financial Reporting") and do not include all disclosures necessary required by US GAAP. The Company omitted disclosures which would substantially duplicate the disclosures contained in its 2007 audited consolidated financial statements, such as accounting policies and details of accounts which have not changed significantly in amount or composition. Management believes that the disclosures are adequate to make the information presented not misleading if these interim condensed consolidated financial statements are read in conjunction with the Company's 2007 audited consolidated financial statements and the notes related thereto. In the opinion of the Company's management, the unaudited interim condensed consolidated financial statements and notes thereto reflect all known adjustments of a normal and recurring nature necessary to present fairly the Company's financial position, results of operations and cash flows for the interim periods.

The results for the three and six months ended June 30, 2008 are not necessarily indicative of the results expected for the full year.

#### **Management Estimates**

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities in the balance sheet as well as the revenues and expenses during the reporting periods. Certain significant estimates and assumptions for the Company include: recoverability and useful lives of long-term assets and investments; allowances for doubtful accounts receivable; asset retirement obligations; legal and tax contingencies; depreciation, depletion and amortization; environmental remediation obligations; oil reserves; recognition and disclosure of guarantees and other commitments. While management uses its best estimates and judgments, actual results could differ from those estimates and assumptions used.

#### Foreign Currency Translation

The management of the Company has determined the US Dollar is the functional and reporting currency of the Company as the majority of its revenues, costs, property and equipment purchased, debt and trade liabilities are either priced, incurred, payable or otherwise measured in US Dollars. Monetary assets and liabilities have been translated into US Dollars at the exchange rate as of the balance sheet date. Nonmonetary assets and liabilities have been translated at historical rates. Revenues, expenses and cash flows are translated into US Dollars at average rates for the period or exchange rates prevailing on the transactions dates where practicable. Gains and losses resulting from the re-measurement into US Dollars are included in the interim condensed consolidated statement of income.

The official rates of exchange of the Ruble to the US Dollar as of June 30, 2008 and December 31, 2007 were 23.46 Rubles and 24.55 Rubles per US \$1.00, respectively.

The translation of local currency denominated assets and liabilities into US Dollars for the purpose of these interim condensed consolidated financial statements does not indicate that the Company could realize or settle, in US Dollars, the reported values of these assets and liabilities. Likewise, it does not indicate that the Company could return or distribute the reported US Dollar value of capital to its shareholders.

#### **Income Taxes**

The Company follows the provisions of APB 28 to arrive at the effective tax rate. The effective tax rate is based on the best estimate of the expected annual tax rate to be applied to the taxable income for the current reporting period. The rate is based on the currently enacted tax rate of 24% and includes estimates for the annual tax effect of permanent differences and realization of deferred tax assets.

#### Derivative Instruments

The Company uses derivative instruments to manage its exposure to changes in foreign currency exchange rates. A substantial portion of the Company's sales revenues are received in US Dollars. Additionally, a significant portion of the Company's financing and investing activities are also undertaken in US Dollars. However, Company's operating expenditures and capital spending are primarily denominated in Russian Rubles. Accordingly, a decline in the value of the US Dollar against the Russian Ruble will negatively impact the Company's operating results and cash flows. Therefore the Company enters into foreign currency forward contracts to manage this risk.

Derivative instruments are recorded at fair value in either other current assets or other current liabilities on the consolidated balance sheet. Realized and unrealized gains and losses are presented in the consolidated statements of income on a net basis. These transactions are not accounted for as hedges pursuant to SFAS 133 "Accounting for Derivative Instrument and Hedging Activities" or its related guidance.

## Accounting Standards Adopted

SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities, including an amendment of FASB Statement No. 115," was adopted by the Company on January 1, 2008. The standard permits companies to choose, at specified dates, to measure certain eligible financial instruments at fair value. The provisions of SFAS No. 159 apply only to entities that elect to use the fair value option and to all entities with available-for-sale and trading securities. At the effective date, companies may elect the fair value option for eligible items that exist at that date, and the effect of the first remeasurement to fair value must be reported as a cumulative-effect adjustment to the opening balance of retained earnings. Since the Company has not elected to adopt the fair value option for eligible items, accordingly, SFAS No. 159 has not had an impact on its financial position or results of operations.

#### Recently Issued Accounting Standards

In March 2008, the Financial Accounting Standards Board (FASB) issued SFAS No. 161, "Disclosures about Derivative Instruments and Hedging Activities," which amends SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities." Enhanced disclosures to improve financial reporting transparency are required and include disclosure about the location and amounts of derivative instruments in the financial statements, how derivative instruments are accounted for and how derivatives affect an entity's financial position, financial performance and cash flows. A tabular format including the fair value of derivative instruments and their gains and losses, disclosure about credit risk-related derivative features and cross-referencing within the footnotes are also new requirements. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early application and comparative disclosures encouraged, but not required. The Company has not yet adopted SFAS No. 161. The Company does not believe that SFAS No. 161 will have an impact on its financial position, results of operations or cash flows.

In May 2008, the FASB issued SFAS No. 162, "The Hierarchy of Generally Accepted Accounting Principles," which identifies a consistent framework for selecting accounting principles to be used in preparing financial statements for nongovernmental entities that are presented in conformity with United States generally accepted accounting principles (GAAP). The current GAAP hierarchy was criticized due to its complexity, ranking position of FASB Statements of Financial Accounting Concepts and the fact that it is directed at auditors rather than entities. SFAS No. 162 will be effective 60 days following the SEC's approval of the Public Company Accounting Oversight Board amendments to AU Section 411, "The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles." The FASB does not expect that SFAS No. 162 will have a change in current practice, and the Company does not believe that SFAS No. 162 will have an impact on its financial position, results of operations or cash flows.

#### 2. Cash and Cash Equivalents

Cash and cash equivalents as of June 30, 2008 and December 31, 2007 comprise the following (in US\$ millions):

#### 4. Long-Term Investments

None of the companies listed below are publicly traded in Russia and due to the nature of the financial markets it is not possible to obtain a current market price for these investments. The significant equity and other long-term investments are summarized below as of June 30, 2008 and December 31, 2007 (in US\$ millions):

JSC Moscow Oil Refinery	(2)	10	7	22				
Total income from equity								
affiliates	\$ 213	\$ 147	\$ 319	\$ 222				

The Company's investment in JSC Slavneft and various minority stakes in Slavneft' subsidiaries ("Slavneft") are held through a series of off-shore entities and an investment trust. During 2005, the Company and TNK-BP agreed to jointly manage the refineries of the Slavneft group with each party purchasing its share of production.

In December 2007 the Company acquired a 50% equity interest in JSC Tomskneft VNK ("Tomskneft") and its subsidiaries from a subsidiary of OJSC Oil Company Rosneft ("Rosneft") for US\$ 3,567 million. The purchase price was based on the fair value of Tomskneft, which amounted to US\$ 3,670 million as determined by an independent appraiser. As part of this transaction, the Company and Rosneft agreed to jointly manage the business operations of Tomskneft and to each purchase their respective share of Tomskneft's annual production. As both the Company and Rosneft are ultimately controlled by the Russian Federation, the transaction was deemed to have occurred between entities under common control and therefore was accounted for at Rosneft's historical cost. Accordingly, the difference of US\$ 2,154 million between the purchase price and historical cost was charged to additional-paid-incapital and reserves in shareholders' equity for the year ended December 31, 2007.

#### 5. Short-Term Loans

As of June 30, 2008, the amount outstanding under this syndicated loan is US\$ 1.8 billion (including current portion of US\$ 800 million). As of December 31, 2007 the amount outstanding under the loan was US\$ 2.2 billion (including current portion of US\$ 800 million).

In May 2008 the Company obtained the first US\$ 500 million tranche of a US\$ 1.0 billion syndicated loan from BBVA Bank, BTMU Bank, Barclays Capital, Sumitomo Mutsui Banking Corporation and WestLB Bank maturing in May 2013, bearing floating interest at rates of LIBOR plus 1.75%.

As of December 31, 2007 the Company had US\$ 17 million loan from Gazprombank, bearing interest rate of 9.60%, which was repaid during the period ended June 30, 2008. Gazprombank is a related party to the Company.

The loan agreements contain financial covenants that require the Company's ratios of Consolidated EBITDA to Consolidated Interest Payable, Consolidated Indebtedness to Consolidated Tangible Net Worth and Consolidated Indebtedness to Consolidated EBITDA. Management believes the Company is in compliance with these covenants as of June 30, 2008 and December 31, 2007, respectively.

Maturities of long-term loans as of June 30, 2008 are as follows (in US\$ millions):

<u>Year due</u>	Amou	ınt due

Total provision for income taxes	\$	661	\$	343	\$	1,063	\$	570

The current portion of income taxes represents the total income tax expense for the Company and each of its subsidiaries.

#### 9. Financial Instruments

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements," which establishes a formal framework for measuring fair values of assets and liabilities in financial statements that are already required by US GAAP to be measured at fair value. SFAS No. 157 establishes a formal fair value hierarchy based on the inputs used to measure fair value. The three levels of the fair value hierarchy are as follows:

Level 1: Valuations utilizing quoted, unadjusted prices for identical assets or liabilities in active markets that the Company has the ability to access. This is the most reliable evidence of fair value and does not require a significant degree of judgment.

# Notes to Interim Condensed Consolidated Financial Statements - Unaudited As of June 30, 2008 and December 31, 2007

Currency - US\$ millions

Level 2: Valuations utilizing quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly for substantially the full term of the asset or liability.

Level 3: Valuations utilizing significant, unobservable inputs. This provides the least objective evidence of fair value and requires a significant degree of judgment.

The Company's only assets and liabilities measured at fair value on a recurring basis are its derivative financial instruments, which has been valued using Level 2 inputs under the fair value hierarchy.

The Company uses derivative financial instruments to manage its exposure to changes in foreign currency exchange rates. A majority of Company's sales revenues are received in US Dollars, a decline in the value of the US Dollar against the Russian Ruble negatively impacts the Company's operating results and cash flows. During the three months ended June 30, 2008 the Company entered into foreign currency forward contracts to manage this risk.

As of June 30, 2008 the Company has derivatives with a total notional value of US\$ 1.0 billion to manage its future exposures to the variability in foreign currency rates under this program. The fair value of these derivative financial instruments was a gain of USD 20 million, which is included in other current assets on the consolidated balance sheet. During the period ended June 30, 2008, the Company recognized USD 20 million in unrealized gains in foreign exchange gain, net in the consolidated statements of income.

The Company does not purchase, hold or sell derivative financial instruments unless it has an existing asset or obligation or anticipates a future activity that is likely to occur that will result in an exposure to foreign exchange risk. The Company does not enter into any derivative instruments for speculative purposes.

#### 10. **Commitments and Contingencies**

#### Taxes

The tax authorities are currently reviewing the operation of the Company and its subsidiaries for the year 2005 and 2006. The review is in process; the impact of the result of the tax review is not determinable, however management believes that the ultimate resolution of this matter will not have a material impact on the Company's financial position, results of operations and cash flows.

Russian tax and customs legislation is subject to varying interpretations, and changes, which can occur frequently. Management's interpretation of such legislation as applied to the transactions and activity of the Group may be challenged by the relevant authorities. The Russian tax authorities may be taking a more assertive position in their interpretation of the legislation and assessments, and it is possible that transactions and activities that have not been challenged in the past may be challenged. Fiscal periods remain open to review by the authorities in respect of taxes for three calendar years preceding the year of review. Under certain circumstances reviews may cover longer periods. The year 2007 is currently open for review.

#### **Operating Environment**

While there have been improvements in the economic situation in the Russian Federation in recent years, the country continues to display some characteristics of an emerging market. These characteristics include, but are not limited to, the existence of a currency that is not freely convertible in any countries outside of the Russian Federation, restrictive currency controls, and a level of inflation. The prospects for future economic stability in the Russian Federation are largely dependent upon the effectiveness of economic measures undertaken by the government, together with legal, regulatory, and political developments.

#### **Environmental Matters**

The enforcement of environmental regulation in the Russian Federation is evolving and the enforcement posture of government authorities is continually being reconsidered. The Company periodically evaluates its potential obligations under environmental regulation. Management is of the opinion that the Company has met the government's requirements concerning environmental matters, and therefore believes that the Company does not have any material current environmental liabilities.

#### 13. Subsequent events

In July 2008 the Company obtained the second US\$ 500 million tranche of a US\$ 1.0 billion syndicated loan from BBVA Bank, BTMU Bank, Barclays Capital, Sumitomo Mutsui Banking Corporation and WestLB Bank.

On September 26, 2008, the Federal Anti-Monopoly Service announced it would impose fines on Gazprom Neft and certain other energy companies for fixing prices of certain refined products on the local market. The amount of the fines will be determined by the Federal Anti-Monopoly Service after further investigation. The law under which the action was taken provides guidelines for a fine of 1 percent to 15 percent of revenues from sales of the products in question but no more than 2 percent of the total revenues. The Company denies any wrong doing and continues to fully cooperate with the authorities. Management can not currently estimate the amount of fines which may be ultimately assessed; however, management believes the amount will not be material to the consolidated financial statements.
