Information on auditor's membership in self-regulating auditor's organizations

Full business name: ***Noncommercial Partnership «Auditors Chamber of Russia»***

Address: ***blд. 3, 3/9 Syromyatnichesky pereulok., Moscow, 105120, Russia***

Supplementary information:

Date of entering the data on the self-regulating auditor's organization in the register:

***October 01, 2009 (Order of the Ministry of Finance of the Russian Federation No. 455 of October 01, 2009);***

***Registered with the state register of self-regulating auditors' organizations under registration entry No. 01.***

Financial year (years among the last five complete financial years and the curent fiscal years) for

which the Auditor carried out an independent audit of accounting records and financial (accounting) statements of the Issuer

Accounting (financial) reporting, year	Summary accounting (financial) reporting, year	Summary accounting (financial) reporting, year
		2007
		2008
		2009
		2010
		2011
2012		2012
2013		2013

Factors that can affect the Auditor's independence from the Issuer including information on existing substantial self-interest of the auditor (officers of the Auditor) in the activities of the Issuer (officials of the Issuer).

Participatory shares of the Auditor (the Auditor's officials) in the authorized (reserve) capital (share fund) of the Issuer: ***the Auditor has no participatory share in the authorized capital of the Issuer;***

Provision of borrowed funds to the Auditor (the Auditor's officials) by the Issuer: ***the Issuer has not provided any borrowed funds to the Auditor (the Auditor's officials);***

Any close business relations (participation in the promotion of goods (services) of the Issuer, participation in joint entrepreneurial activities, etc.) and any sibling connections: ***the Issuer has no close business relations or kinship with the Auditor;***

Information on the Issuer's officials being simultaneously the Auditor's officials (the Auditor): ***the Issuer's officials are not simultaneously the Auditor's officials.***

Other factors which may influence the Auditor's independence from the Issuer: ***there are no other factors.***

Measures taken by the Issuer and the Auditor to decrease the influence of the said factors:

The Auditor is not a member of the Issuer's shareholding structure, the Issuer is not a member of the Auditor's shareholding structure, the Issuer's chief accountant is not the Auditor's employee, no loan/credit contracts have been made between the Auditor and the Issuer.

The Issuer and the Auditor will act (acted) under the applicable law, in particular in accordance with Federal Law No. 307-FZ of December 30, 2008 "On Audit Activities", p. 1 of cl. 8 of which states that audit cannot be performed:

1) by audit organizations the heads and other officials of which are the founders (stockholders) of the audited parties, their officials, accountants and other persons responsible for the organization and keeping of the accounting records and preparation of the accounting (financial) statements;

2) by audit organizations the heads and other officials of which have kinship with (are parents, spouses, siblings, children or siblings, parents and children of spouses of) the founders (stockholders) of the audited parties, their officials, accountants and other persons responsible for the organization and keeping of the accounting records and preparation of the accounting (financial) statements;

3) by audit organizations with respect to the audited parties being their founders (stockholders), with respect to the audited parties for which these audit organizations are the founders (stockholders), with respect to the subsidiaries, branches and representatives offices of the said audited parties, as well as with respect to organizations having common founders (stockholders) with this audit organization;

4) by audit organizations, individual auditors providing audit services for restoration and

keeping of accounting records and for preparation of the accounting (financial) statements to physical persons and legal entities for three years immediately preceding the audit, with respect to such persons;

5) by the auditors being the founders (stockholders) of the audited parties, their heads, accountants and other persons responsible for the organization and keeping of the accounting records and preparation of the accounting (financial) statements;

6) by the auditors closely relating to the founders (stockholders) of the audited parties, their officials, accountants and other persons responsible for the organization and keeping of the accounting records and preparation of the accounting (financial) statements (parents, spouses, siblings, children, as well as siblings, parents and children of their spouses).

Basic measure taken by the Issuer to prevent the dependency of the Issuer and the Auditor on each other is the process of thorough examination of the candidature of the Auditor for the latter's independence from the Issuer. The Auditor is fully independent of the Issuer's management bodies in accordance with Article 8 of Federal Law No. 307-FZ of December 30, 2008 "On Audit Activities"; the amount of the Auditor's fee does not depend on the results of the audit conducted.

#### **Procedure for selection of the Issuer's Auditor**

Tendering procedure for the selection of auditor and its general conditions:

The Issuer's auditor was selected by Tender. To take part in Tender, audit organizations had to meet the following requirements:

- not to be under the liquidation;
- not to have the decision ordering the suspension of activity issued in compliance with the Code of Administrative Offences of the Russian Federation at the date of the approval of the application for Tender;
- not to have unsettled tax liabilities, unpaid levies and other outstanding statutory payments to all budget levels or to state non-budgetary funds from the previous calendar year, the amount of which exceeds twenty-five percent of the applicant's book value of assets as appears on financial statements for the most recent closed reporting period;
- not to meet the conditions (in respect to the Company and SDCs of IDGC Holding, JSC) listed in the paragraph 1 of the Article 8 of the Federal Law "On Audit Activities" of December 30, 2008 No. 307-FZ.

Procedure for nominating auditors for appointment by the Meeting of Shareholders (stockholders) including management body authorized to make such decision:

In accordance with subparagraph 11 of paragraph 10.2 of the Company's Articles of Association, the candidature of the Auditor shall be approved by the General Meeting of Shareholders of IDGC of Volga, JSC.

By the decision of the Annual General Meeting of Shareholders of IDGC of Volga, JSC that took place on June 11, 2013 (Minutes No. 7/2013 of June 11, 2013) "KPMG" Limited Liability Company was approved as the Auditor of the Issuer.

The Issuer's Auditor shall carry out an audit of the Issuer's financial and business activities in compliance with the laws of the Russian Federation and under concluded contract.

Information on the works which are carried out by the auditor within special auditor tasks is specified: The works which are carried out by the auditor within special auditor tasks, in the reporting period weren't carried out.

The order of definition of amount of remuneration of the auditor is described, the actual amount of remuneration, paid by the issuer to the auditor is specified following the results of the last complete fiscal year for which the auditor carried out independent verification of the accounting (financial) reporting of the issuer, information on existence delayed and back payments for the services rendered by the auditor is provided:

The cost of services and procedure for payment of the auditor are defined in the contract signed between Society and the auditor.

Information on existence delayed and back payments for the services rendered by the auditor is provided: Delayed and back payments for the services rendered by the auditor are absent.

Information on the amount of fee paid by the Issuer to the Auditor:

Item name	2012	Quarter 3, 2013
Market capitalization, rubles	13,361,191,081.74	5,662,702,074.34

Information on trade organizer in the securities market that submit data to calculate market capitalization and other additional information related to public circulation of securities at the discretion of the Issuer: shares of IDGC of Volga, JSC were added to the quotation list "A", Tier II, of the Sector "Main Market" and to the non-listed securities schedule of the Sector "Classica" in the stock market of MICEX-RTS Group - MICEX SE.

Market capitalization of IDGC of Volga, JSC provided in this section relies on data from CJSC "MICEX Stock Exchange" (<http://www.micex.ru/marketdata/quotes>) as of the last date of each mentioned reporting period.

## 2.3. Issuer's Liabilities

### 2.3.1. Borrowed Funds and Payables

For 9 months of 2013

Structure of payables

Units, thousand RUR

Item name	Value
Long-term borrowed funds	12,200,000
Including:	
Credits	12,200,000
Loans, for an exception of the bonds	0
Bonded loans	0
Short-term borrowed funds	14,340
Including	0
Credits	14,340

Loans, for an exception of the bonds	0
Bonded loans	0
General size of arrears on debt funds	0
including	
Credits	0
Loans, for an exception of the bonds	0
Bonded loans	0

Accounts payable structure

Units, thousand RUR

Item name	Value
Accounts payable	5,157,839
Delayed accounts payable	412,928
Including	
before the budget and the state off-budget funds	647,207
Delayed accounts payable	0
Suppliers and contractors	2,896,267
Delayed	118,016
Stuff of the company	366,950
Delayed	0
Others	1,247,415
Delayed	294,912

In the presence of the delayed accounts payable, including on debt funds, the reasons of default and a consequence which care are specified or there can come in the future for the issuer owing to defaults of the corresponding obligations, including the sanction imposed on the issuer, and term (expected term) repayments of the delayed accounts payable or arrears on debt funds.

The rate of the delayed accounts payable of the Issuer as of 30.09.2013 is 11.49%, hence, the risk of presentation to repayment of arrears is insignificant for the Issuer.

Creditors of which share is not less than 10% from total amount of accounts payable or is not less than 10 % from the general size extra (long-term and short-term) means are the share: *the specified creditors aren't present.*

### 2.3.3. Issuer's liabilities for collateral pledged to third parties

*Units, thousand RUR*

Name of item	2013, 9 months
Total amount of obligation of the Issuer from the providing, given to them	6,832
Total amount of obligation of the third parties on which the Issuer provided taking into account limited liability of the Issuer according to such obligation of the third party, defined proceeding from conditions of providing and the actual rest of debt on the obligation of the third party	0
Including in the form of pledge or the guarantee	0

Obligations of the issuer from the providing provided from start date of the current fiscal year and to an expiry date of reporting quarter to the third parties, including in the form of pledge or the guarantee, components not less than 5 percent from balance cost of assets of the issuer on an expiry date of the last complete reporting period previous providing of providing: *the specified obligations in this reporting period didn't arise.*

### 2.3.4. Other liabilities of the Issuer

*The Issuer does not have other liabilities not recognized on its balance sheet which can substantially affect its financial standing, liquidity, financing sources and conditions of their use, business performance and expenses*

### 2.4. Risks involved in acquiring of issuable securities to be placed (placed)

The Issuer's risk management strategy:

Acquiring issuable securities by the Issuer involves certain risks that may result in incurring damages by their holders related to loss of income or invested funds as well as to loss exceeding investment amounts.

This subsection contains information on risk factors related to acquiring issuable securities by the Issuer. The list of factors presented is not limiting and only reflects Issuer's own opinion and judgments.

The Issuer considers risk management as one of the crucial elements of strategic management and internal control. The Issuer's risk management policy covers both possible adverse events (threats) and favorable events (opportunities). The Issuer constantly identifies, assesses and controls threats and opportunities, adjusts its activities as to minimize possibility and consequences of potential threats and to realize opportunities, and informs shareholders and other concerned persons of such factors.

The Issuer's risk management policy is aimed not at risk elimination but at increasing possibility of achieving strategic goals and reducing possibility of occurrence and extent of possible loss. For these purposes the Issuer establishes acceptable risk levels for each category of material risks.

The Issuer's risk management policy accounts for correlation between risks of different categories. To assess their joint impact on its activities the Issuer applies a unified approach to assessment of finance, operational and other risks.

Within the framework of the risk management policy the Issuer considers not only shareholders' interests but also possible effect of its activities on other concerned persons.

Main tasks of the Issuer's risk management policy are:

ensuring compliance with the requirements of due corporate governance practices requiring the Issuer to pay special attention to risk tracking, monitoring and management and due disclosure of information on such issues;

preventing situations threatening Company's strategic goals and ensuring relevant protection measures;

ensuring coordination and integration of risk management processes relating to different aspects of business activities with the purpose of general improvement of Company management effectiveness; ensuring use of new opportunities for increasing value of Issuer's assets and profitability in the long-term.

The Issuer will use the best efforts to minimize the effect of adverse changes in case of their occurrence.

The Issuer's risk management system is interlinked with the process of strategic and operational planning as well as with the budgeting procedure and is used for making the most effective and economical decisions by the Issuer's management bodies.

The Risk Management Policy of IDGC of Volga, JSC approved by the resolution of the Company's Board of Directors (minutes No.20 dated June 18, 2010) is the procedural and institutional base for the Issuer's risk management system functioning. This document sets the key principles for organization, implementation and control of risk management processes at IDGC of Volga, JSC. The Policy provides for the top-priority actions to be taken for the purpose of establishing the risk management system.

An analysis of the most essential risks that may affect the Issuer's activities is presented below in paragraphs 2.4.1 – 2.4.5. In case that one or several of them occur the Issuer will take all possible measures to minimize adverse effects of their occurrence. To neutralize a part of risks the Issuer will take a range of protective actions. A plan of possible measures to be taken by the Issuer in case of occurrence of one or another risk is also developed.

However, it should be noted that the Issuer leaves open the possibility of existence of other risks including those that the Company is not aware of at the moment or considers insignificant. Previous elaborating adequate measures for response to such risks is embarrassed by the uncertainty of situation development and the scope of actions taken will rather depend on specifics of the conditions created in each particular case. Along with this the Issuer cannot guarantee that actions aimed at overcoming of such adverse changes occurred will be sufficient to remedy the situation as the factors described may fall outside its control.

#### **2.4.1. Industry Risks**

*No changes observed in the content of information of the present item in the reporting quarter*

#### **2.4.2. Country and Regional Risks**

*No changes observed in the content of information of the present item in the reporting quarter*

#### **2.4.3. Financial risks**

*Inflation risk*

Recently the status of the Russian economy is characterized by moderate rates of inflation. The table below provides data on inflation indices for the period from December 31, 2007 until September 30, 2013.

<b>Period</b>	<b>Inflation for the period*</b>
<b>9 months of 2013</b>	<b>4.7%</b>
<b>1st half-year of 2013</b>	<b>3.5%</b>
<b>2012</b>	<b>6.6%</b>

<b>2011</b>	<b>6.1%</b>
<b>2010</b>	<b>8.8%</b>
<b>2009</b>	<b>8.8%</b>
<b>2008</b>	<b>13.3%</b>
<b>2007</b>	<b>11.9%</b>

*\* data of Federal Service of State Statistics of the Russian Federation (Rosstat)*

Following the results of 9 months of 2013 inflation makes 4.7 %. For 9 months of 2012 the rate of inflation makes 5.2%. In comparison with the similar period of last year the trend of insignificant increase in rates of inflation is observed.

On the whole, influence of inflation factors on financial stability of the Issuer in the future is negligible.

Critical for the enterprises which are carrying out the production activity in the conditions of formation of fixed tariffs, on following financial waiting the rate of inflation exceeding 9.08% as according to Art. 269 of the Tax code of the Russian Federation "the limit size of the percent recognized as an expense, is accepted to an equal rate of refinancing of the Central bank, increased by 1,1 times

In the specified situation the probability of the Issuer's failure to fulfill obligations on securities in actual terms of money is low.

Considering declared intentions of the Government of the Russian Federation and the Central bank of the Russian Federation about carrying out an anti-inflationary policy, by an assessment of the issuers probability of inflation growth in Russia in the specified limits in average-time prospect is low.

In the specified situation probability of non-execution by the issuer of obligations under securities in real monetary value is low.

Susceptibility of indicators of financial statements of the issuer prepared on the Russian standards of accounting, to influence of the specified financial risks

#### *Risks related to fluctuations of foreign currency exchange rates*

In process of investment activity, the Issuer may be purchasing goods from foreign suppliers, the cost of which directly depends on fluctuation of currencies. However, the Issuer engages into finance and economic activity exclusively in the domestic market and makes settlements in rubles. Therefore liability of the Company's financial state, liquidity and results of the Issuer's activity to the fluctuations of the currency exchange rate is minimum.

#### *Liability of indices of the Issuer's financial statements prepared in accordance with the Russian accounting standards to influence of specified financial risks.*

The following indices of financial statements are most liable to variation as a result of influence of specified financial risks:

- accounts receivable – increased turnover time;
- accounts payable – increased turnover time;
- monetary funds – less free monetary funds;
- profit from the main activity – reduction.

These risks may be mitigated using the following methods:

- elaboration of a single development strategy for various fields of finance activity in the Company;
- establishment of proper loan policy of the Company; raising credit resources to eliminate cash deficiency;
- establishment of budget policy and efficient performance of income and expenses plan;
- optimization of financial flows through strengthening of financial discipline;
- financial performance analysis in order to develop proposals for increasing profitability and improving efficiency, saving financial resources and increasing financial stability of the Company;

- optimization of costs management through reduction of expenses;
- efficient monitoring of accounts receivable and accounts payable;
- claims work with past-due accounts receivable;
- maintenance of corporate supervision over finance and economic activity of the Issuer.

#### **2.4.4. Legal risks**

*No changes observed in the content of information of the present item in the reporting quarter .*

#### **2.4.5. Risks associated with the Issuer's business activity**

*No changes observed in the content of information of the present item in the reporting quarter .*

### **III. Detailed information about the Issuer**

#### **3.1. History of establishment and development of the Issuer**

##### **3.1.1. Information on the Issuer's business name**

The Issuer's full business name: ***"Interregional Distribution Grid Company of Volga", Joint-Stock Company***

The date of Introduction of full business company name – ***29.06.2007***

Revenue volume from sales (sales volume) by this type of economic activity, thousand rubles.	34,013,163	28,859,981
Sale of electric energy and power	-	5,753,772
Revenue share from sales (sales volume) by this type of economic activity in total amount of revenue from sales (sales volume) of the issuer, %	99.01	98.51

Changes of the size of revenue from sales (sales volume) of the issuer from the primary economic activity for 10 and more percent in comparison with the similar reporting period of previous year and the reason of such changes: there are no specified changes.

Decrease in revenue from transfer of electric energy in 9 months 2013 with respect to similar period of 2012 on 5,153,182 thousand rubles or 15% is caused by the following reasons.

- change cancellation on return of the sums of cross subsidizing to guaranteeing supplier on Orenburgenergo branch since 2 half-year 2012 that led to change mutual settlements according to the accepted scheme of "boil-formation" between participants of the retail market, and, therefore, to decrease in profitable and settlement part on 3,773,484 thousand rubles.
- features of the accounting of the income and expenses on kinds of activity "electric power transfer" and "electric power sale" (the income from electric power transfer on consumers of "Penzaenergobyt" is considered in a kind of activity "pro-giving the electric power" by 2,468,634 thousand rub).
- decrease in volume of useful output on 6.5 % that is provided by stage-by-stage refusal in a conclusion of lease contracts of "the last mile objects of " since 01.01.2013 according to the Order of Ministry of power industry of the Russian Federation of 24.08.2012 No. 403, and also an electricity consumption decrease by big customers of services.

Seasonal nature of the primary economic activity of the Issuer

**The main type of activity of the company - rendering of services in transportation of electric energy - has seasonal nature: during the autumn and winter period (4 and 1 quarters) volumes of transfer of the electric power increase in connection with seasonal growth of volumes of consumption. At the same time, the main amount of works on repair and reconstruction of objects of an electronetwork economy falls on 2-3 quarter.**

General structure of prime cost of the Issuer

Наименование статьи затрат	2013, 9 мес.
----------------------------	--------------

Raw materials and materials, %	3.17
The acquired completing products, semi-finished products, %	0
Works and the services of production character executed by the foreign organizations,%	2.74
Fuel, %	1.07
Energy, %	19.93
Labor costs, %	14.81
Percent on credits, %	0
Rent, %	0,71
Assignments on social needs, %	4.4
Amortization of fixed assets, %	11.02
The taxes included in product cost, %	1.04
Other costs	
amortization on intangible assets, %	0.05
compensations for improvement suggestions, %	0
obligatory insurance payments, %	0.06
expense account, %	0
other, %	1.24
Servives of FGC UES,JSC	22.66
Services of distribution grid companies	15.87
Assignments on non-state provision of pensions (Non-state pension fund of electric power), %	0.31
Purchased power on industrial and economic needs, %	0.60
Business trip expenses, %	0.19
Leasing, %	0.13
Total: costs of production and production sale (works, services) (prime cost),%	100
Reference: Proceeds from sales of production (works, services),%	104.1

The greatest specific weight in structure of expenses of Society following the results of activity for the 9 months of 2013 is the share of the following articles of expenses:

- “energy” – 19.9%
- services of FGC UES, JSC – 22.66 %,
- "services of distribution grid companies" – 15.87 %,
- "labor costs" – 14.81 %,
- "assignments on social needs" – 4.4 %,
- "amortization of fixed assets and non-fixed assets" – 11.02 %.

*The Issuer’s cost structure has not undergone significant changes in Q1-3 2013.*

New types of production having essential value (works, services), offered by the Issuer in the market of its primary activity, in that degree as far as it corresponds to public information on such types of production (works, services). The condition of development of such types of production (works, services) is specified.

In accordance with resolution of Supervisory Board of Non-Profit Partnership "Market Council" dated 23.01.2013, Order No.29 of the RF Ministry of Energy dated 24.01.2013, and Decree of the RF Government No.1482 dated 30.12.2012 r. on divesting unfair power supply companies and guaranteed supply companies of their wholesale market entity status and assigning this status to territorial power grid companies, since 01.02.2013, power supply functions in the territory of the Penza region are performed by Penzaenergo, branch of IDGC of Volga, JSC.

Proceeds received by the Issuer from sale of electric power and capacity for 9 months 2013 amounted to 5,753,722 thousand rubles, or 16.4% of the aggregate income.

Return on sales for these activities amounted to 0.9%.

Standards (rules) according to which the accounting (financial) reporting is prepared and are made the calculations reflected in the real point of the quarterly report:

- The federal law "About accounting" from November 21, 1996 of No. 129-FZ.

- 1) The accounting regulation "Accounting of material and production stocks" PBU 5/01 approved by the order of the Ministry of Finance of the Russian Federation from 09.06.2001 of No. 44H.
- 2) The accounting regulation "Accounting reporting of the organization" PBU 4/99 approved by the order of the Ministry of Finance of the Russian Federation from 06.07.1999 of No. 43H.
- 3) The accounting regulation "Organization expenses" PBU 10/99 approved by the order of the Ministry of Finance of the Russian Federation from 06.05.1999 of No. 33H.
- 4) The accounting regulation "Accounting policies of the organization" PBU 1/2008 approved by the order of the Ministry of Finance of the Russian Federation from 06.10.2008 of No. 106H.
- 5) The accounting regulation "Accounting of fixed assets" PBU 6/01 approved by the order of the Ministry of Finance of the Russian Federation from 30.03.2001 of No. 26H.
- 6) The accounting regulation "Events after reporting date" PBU 7/98 approved by the order by the Ministry of Finance of the Russian Federation from 25.11.1998 of No. 56H.
- 7) The accounting regulation "The accounting of expenses on loans and the credits" PBU 15/08 approved by the order of the Ministry of Finance of the Russian Federation from 06.10.2008 of No. 107H.
- 8) the Accounting regulation "The organization income" PBU 9/99 approved by the order of the Ministry of Finance of the Russian Federation from 06.05.1999 of No. 32H.
- 9) The accounting regulation "Accounting of intangible assets" PBU 14/07 approved by the order of the Ministry of Finance of the Russian Federation from 27.12.2007 of No. 153H.
- 10) The accounting regulation "The accounting of assets and the obligations, which cost it is expressed in foreign currency" PBU 3/2006 approved by the order of the Ministry of Finance of the Russian Federation from 27.11.2006 of No. 154H.

### **3.2.3. Materials, Goods (Raw Material) and Suppliers of the Issuer**

For 9 months of 2013.

Suppliers of the Issuer of whom not less than 10 percent of all deliveries of materials and the goods (raw materials) are the share

***There are no suppliers of the issuer of whom not less than 10 percent of all deliveries of materials and the goods (raw materials) are the share***

Information on change of the prices more than for 10 % for the main materials and the goods (raw materials) during the corresponding reporting period in comparison with the corresponding reporting period of previous year.

***Changes of the prices more than for 10 % for the main materials and the goods (raw materials) during the corresponding reporting period weren't***

Share of an import in deliveries of materials and the goods, forecast of availability of sources of an import in the future and possible alternative sources

***Import deliveries are absent***

### 3.2.4. Markets for the Issuer's Goods (Works, Services)

No changes concerning the present item in the reporting quarter were observed

### 3.2.5. Information on licenses held by the Issuer

*No changes in the information of the present item in the reporting quarter were observed*

### 3.2.6. Additional requirements to the issuers being joint-stock investment funds, the insurance or credit companies, mortgage agents

The Issuer is not joint-stock investment funds, insurance or credit companies, mortgage agents

### 3.2.7. Additional requirements to the issuers which primary activity is mining

Primary activity of the issuer isn't mining

### 3.2.8. Additional requirements to the Issuers which primary activity is rendering communication services

Primary activity of the Issuer isn't communication services

### 3.3. The Issuer's Outlook

*No changes in the information of the present item in the reporting quarter were observed*

### 3.4. The Issuer's participation in industrial, bank and financial groups, holdings, corporate groups and associations

*No changes in the information of the present item in the reporting quarter were observed*

### 3.5. Subsidiaries and affiliated business entities of the Issuer

#### 3.5. Significant organizations controlled by the Issuer

1. Full company name: ***Joint-Stock Company Social Sphere-M***

**Short company name: *Social Sphere-M, JSC***

Location: 50, Lenina St., Saransk, the Republic of Mordovia, Russian Federation, 430003.

### **3.6. List, Structure and Value of the Issuer's Fixed Assets, Information on Plans for Acquisition, Replacement and Disposal of Fixed Assets as well as All Facts about Encumbrances of Fixed Assets of the Issuer**

#### **3.6.1. Fixed assets**

For the date of expiry of the reporting period.

Unit of measure: thousand RUR

The name of group of objects of fixed assets	Initial (regenerative) cost	Sum of the added amortization
Earth	77,283	0
Buildings	6,577,003	1,170,787
Constructions (except LEP, heating systems and hydraulic engineering constructions), Hydraulic engineering constructions	1,811,251	446,814
Power lines (air lines, cable lines)	23,753,312	6,958,935
Heating systems	9,353	3,042
Cars and the equipment, except the equipment for electric power transformation	6,022,038	2,352,490
The equipment for electric power transformation	28,743,051	7,959,879
Means of transportation	1,866,798	660,723
Other	1,063,965	799,917
Total	69,434,452	20,739,354

Data on ways of charge of depreciation charges on groups of objects of fixed assets:

*Amortization on fixed assets is charged by the issuer in monthly linear way on all groups of homogeneous objects during all term of their useful use at a rate of 1/12 annual sums.*

Reporting date: **30.09.2013**

Results of the last reassessment of fixed assets and dolgosrochno the rented fixed assets, carried out within the last complete fiscal year, with the indication of date of carrying out the reassessment complete and residual (minus amortization) balance cost of fixed assets before reassessment and full and residual (minus amortization) regenerative cost of fixed assets taking into account this reassessment. Specified information is provided on groups of objects of fixed assets. Data on ways of charge of depreciation charges on groups of objects of fixed assets are specified.

***Reassessment of fixed assets for the specified period wasn't carried out***

Data on plans on acquisition, replacement, leaving of the fixed assets which cost makes 10 and more percent of cost of fixed assets of the issuer, and other fixed assets at the discretion of the issuer, and also data on all facts of encumbrance of fixed assets of the issuer (with the indication of nature of encumbrance, date of emergence of encumbrance, term of its action and other conditions on a discretion of the issuer) are specified.:

***Plans on acquisition, replacement, leaving of the fixed assets which cost makes 10 and more percent of cost of fixed assets, at the issuer are absent now. The facts of encumbrance of fixed assets are absent.***

**IV. Information on Financial and Business Activities of the Issuer**

**4.1. Results of Financial and Business Activities of the Issuer**

Dynamics of the indicators characterizing results of financial and economic activity of the issuer, including its profitability and the unprofitability, calculated on the basis of data of the accounting (financial) reporting

Standard (rules) according to which the accounting (financial) reporting on the basis of which indicators are calculated is made: RAS

Unit of measure for the sum of an uncovered loss: thousand rubles.

Name of the item	2012, 9 months	2013, 9 months
Norm of net profit, %	3.5	-0.9
Factor of turnover of assets, times	0.4	0.4
Profitability of assets, %	1,5	-0.3
Profitability of own capital, %	2	-0.5
The sum of an uncovered loss for reporting date	-1,106,194	- 1,311,418
Ratio of an uncovered loss for reporting date and balance cost of assets, %	-0.02	-0.02

All indicators are calculated on the basis of recommended techniques of calculations

Economic analysis of profitability/unprofitability of the issuer, proceeding from dynamics of the given indicators, and also the reason which, according to governing bodies, led to losses/profit of the issuer, reflected in the accounting (financial) reporting:

***Following the results of the activity for 9 months of 2013 sales proceeds made 35,136,167 thousand rubles, size of gross profit – 1,370,927 thousand rubles, size of net loss – 756, 806 thousand rubles. Profitability of own capital for reporting period made 1.8 %, profitability of assets – 1.2 %.***

***The norm of net profit following the results of the reporting period developed of 2.2 % that is 5.4 % less than the fact of 9 months of 2012.***

***The ratio of size of uncovered loss and balance sheet total for the end of the reporting period made 0.03%.***

***The main reason for negative dynamics of financial results and profitability indicators in the reporting period in comparison with the fact of 9 months 2012 is decrease in profitability on a primary activity - rendering services in electric power transfer, mainly, at the expense of decrease in***

*useful holiday of the electric power for 6,5%.*

Opinions of governing bodies of the issuer concerning the reasons or extent of their influence on results of financial and economic activity of the issuer don't coincide: **No**

The board member (supervisory board) of the issuer or the member of collegiate executive body of the issuer has a dissenting opinion of rather mentioned reasons and/or extents of their influence on results of financial and economic activity of the issuer, reflected in the protocol of meeting (meeting) of board of directors (supervisory board) of the issuer or collegiate executive body on which appropriate questions were considered, and insists on reflection of such opinion in the quarterly report: **No**

#### **4.2. Liquidity of the Issuer, Sufficiency of Equity and Current Assets**

Dynamics of the indicators characterizing liquidity of the issuer, calculated on the basis of data of the accounting (financial) reporting

Standard (rules) according to which the accounting (financial) reporting on the basis of which indicators are calculated is made: **RAS**

Unit of measure for an indicator 'net working capital: *thousand rubles.*

Name of an indicator	2012, 9 months	2013, 9 months.
Net working capital	1,633,197	831,912
Factor of the current liquidity	1.3	1.14
Factor of fast liquidity	1.06	0.91

At the discretion of the issuer dynamics of the indicators characterizing liquidity of the issuer, calculated on the basis of data summary accounting (consolidated financial) the reporting of the issuer included in structure of the quarterly report is in addition given: **No**

In comparison with the similar period of 2012 decrease in size of net working capital is observed. However value of an indicator characterizes sufficient level of financial independence of the issuer.

Factors of liquidity testify to high degree of solvency of the issuer.

High values of factors of liquidity are caused by that throughout the considered period the trend of considerable excess of current assets over short-term obligations of the company remains that testifies to sufficiency of volume of the means necessary for repayment of the obligations.

The result of 9 months of 2013 testifies that economic activity of the issuer is characterized by a steady financial condition, ability of the company to maintain the solvency in operating, investment and financial activities.

All indicators are calculated on the basis of recommended techniques of calculations: **Yes**

The economic analysis of liquidity and solvency of the issuer, sufficiency of own capital of the issuer for execution of short-term obligations and a covering of the operating operating expenses on the basis of the economic analysis of dynamics of the given indicators with the description of factors which, according to governing bodies of the issuer, made the most essential impact on liquidity and solvency of the issuer:

*Structure of sources of financing of current assets:(2013, 9 months)*

- long-term liabilities - 12,8 %

- short-term liabilities - 87,2 %

*Sources of financing of current assets of the issuer:*

- own sources;

- credits.

*Policy of the issuer on financing of current assets.*

The policy of the issuer concerning financing of working capital consists in optimization of volume

and structure of financial sources taking into account ensuring effective use of own capital and sufficient financial stability.

*Factors which change in policy of financing of current assets and an assessment of probability of their emergence can entail.*

The policy of financing of current assets is based on formation of the balanced budget of cash flow. The current financing of current assets is carried out, mainly, at the expense of proceeds from primary activity, and also by means of attraction of extra resources. Thus the probability of emergence of factors which can entail negative changes in policy of financing of current assets of the issuer, low that is a consequence of carrying out competent financial policy by Society management.

Opinions of governing bodies of the issuer concerning the reasons or extent of their influence on results of financial and economic activity of the issuer don't coincide: **No**

The board member (supervisory board) of the issuer or the member of collegiate executive body of the issuer has a dissenting opinion of rather mentioned reasons and/or extents of their influence on results of financial and economic activity of the issuer, reflected in the protocol of meeting (meeting) of board of directors (supervisory board) of the issuer or collegiate executive body on which appropriate questions were considered, and insists on reflection of such opinion in the quarterly report: **No**

#### **4.3. Financial investments of the Issuer**

*No changes were observed in the content of information of the present item for the reporting quarter.*

#### **4.4. Non-fixed assets of the Issuer**

For the date of expiry of the reporting period

Unit of measure: thousand RUR

Name of group of objects' intangible assets	Initial (regenerative) cost	Sum of the added amortization
Patents, licenses, trademarks, etc	340	187
Other types of intangible assets	194,164	113,718
<b>TOTAL</b>	<b>194,504</b>	<b>113,905</b>

Standards (rules) of accounting according to which the issuer represents information on the intangible assets:

- PBU 4/99 "Accounting reporting of the organization" (Approved by. the Order of the Ministry of Finance of Russia from 06.07.1999 of N of 43 N);
- Accounting regulation "Accounting of intangible assets" of PBU 14/2007 (Approved by. the Order of the Ministry of Finance of Russia from 27.12.2007 of N of 153 N).

Reporting date: 30.09.2013

#### **4.5. Issuer's policy and expenses in the field of scientific and technical development, licences and patents, new investigations:**

1. Policy of the Issuer in the field of scientific and technical development:

1.1. The Scientific-Technical Council of IDGC of Volga, JSC operates in the Company.

1.2. Representatives of IDGC of Volga, JSC attended the following professional development courses:

"Overload of 6-750 kV power grids and methods of overload limitation", St.-Petersburg, Federal State Independent Educational Institution of Continuing Professional Education St. Petersburg Power Engineering Institute of Advanced Vocational Training (FGAOU DPO PEIPK), September 09-21, 2013;

Participation in scientific and technical conference "Technological Development of Mid-Volga Power Grid", September 24-25, 2013, with a report on the topic: "6-10 kV grid control automation", September 24, 2013.

1.3. At new construction, modernization and reconstruction, and also at operation of the electrotechnical equipment and materials replacement physically and morally worn-out equipment on new which IDGC of Volga, JSC will provide increase of reliability of the equipment at normal and emergency operation of work, high level of safety is applied.

2. The issuer has no objects of intellectual property (patents for the invention, for useful model and for an industrial sample, trademarks and service marks).

3. Creation and legal protection of the main objects of intellectual property during the existence by the issuer weren't carried out. Funds for legal protection of objects of intellectual property and results of intellectual activity weren't spent by the issuer.

The issuer received the following certificates on the trademarks (service marks) registered in the State register of trademarks and service marks.

On April 29, 2008:

- Certificate on a trademark No. 349047 according to the application form No. 2007730029;
- Certificate on a trademark No. 349048 according to the application form No. 2007730031;
- Certificate on a trademark No. 349049 according to the application form No. 2007730033.

On December 3, 2008:

- Certificate on a trademark No. 366456 according to the application form No. 2007730032.

On December 5, 2008:

- the certificate on a trademark No. 366537 according to the application form No. 2007730028.

#### **4.6. Analysis of Development Trends in the Issuer's Core Business Activity**

The following information is based on opinions of the Issuer's Management Bodies.

Outline of development trends in the industry where the Issuer performs its main business activity:

Historically, the power industry is the key for the Russian economy. As part of the energy sector, the industry influences all industries and serves as an indicator of economic stability in the country.

The development of power industry in the period from 2000 to 2008 was primarily characterized by turnaround of negative power practices formed in mid 90s and the growth in power consumption that emerged in 1999. Rising industrial production was accompanied by the increase in solvency of manufacturers - consumers of power and heat energy, which allowed to solve the problem of non-payment in the power industry.

The country's economic growth along with structural reforms that go along with this growth sets a new goal for the power industry. At this new stage, the power industry is challenged to provide the infrastructure that would enable the creation of new or expansion of existing industrial facilities at locations required by the nature of emerging manufacturing enterprises. The achievement of this goal would require accelerated development of grid and equipment components of the power industry and its increased flexibility.

Major development trends in the industry in the period from 2002 to 2005:

- setting up infrastructure wholesale companies: System Operator "SO-CDA UES", JSC; UNEG Management Company "FGC UES", JSC; Trading System Administrator - NP "ATS";
- arrangement and commencement of the reorganization of AO-energo, establishing power generating, sales, grid (distribution and dispatch) companies;
- opening of the free wholesale power market "5-15";
- opening of the free wholesale electrical capacity market.

It is important to point out negative effects caused by global financial and economic crisis. Positive economic growth developed in the period from 2000 to the first half of 2008 was followed by a slowdown in the fourth quarter of 2008 and then the decline in power consumption by large metal manufacturers and engineering manufactures.

Negative effects lingered throughout 2009. For instance, the amount of power supply to the grids of IDGC of Volga, JSC dropped by 8.2% for 12 months of 2009 compared to the same period in 2008.

The growth in electricity transmission started in Q4, 2009 extended to Q1, 2012. This trend is generally attributed to the increase in electricity consumption by major industrial companies as a result of overall economic improvement in Russia.

Changes in regulations in the course of power industry reorganization:

1. As of January 01, 2006, power generating companies belonging to OAO RAO "UES of Russia", emerged as a result of reorganization of AO-energo and "FGC UES", JSC, entered the wholesale power market. This led to the revision of the information exchange practices with market players and strengthening of requirements on power metering at DGCs.
2. Approval and enactment of Rules for wholesale and retail electricity markets in 2012 (Governmental Regulations No. 1172 dated December 27, 2012 and No.442 dated May 04, 2012). The implementation of these regulatory documents changed the procedure for payment for DGC's services and their relations with clients.
3. Changes in the charging policy for services provided by "FGC UES", JSC as of July 01, 2006. Introduction of new rules for the pricing policy of UNEG (changing to announced capacity based charges) allowed DGCs to more precisely plan for the volume and cost of services provided by "FGC UES", JSC in 2006 and later.
4. Changes in the charging policy for services provided by distribution grid companies as of January 01, 2008 that introduced double-rate charges for the transmission of power including the rate for grid maintenance (per announced capacity), and the rate for covering losses (per actual amount of transmitted power).
5. Setting unified "boiler" charges for power transmission services in compliance with the requirements laid down by the FTS and the Government of the Russian Federation. Apart from setting a unified charge for power transmission services in regions, this relationship model requires DGCs to conclude contracts on power transmission to end users with every power grid company operating in their region.

Factors having significant effect on the condition of the industry: reorganization pace, availability of regulatory base in particular; solvent demand from customers; technical condition of plant and machinery.

Overall assessment of the Issuer's performance in the industry

IDGC of Volga, JSC successfully meets its objectives of nationwide importance to provide reliable and steady power supply to customers from every industry of the economy.

In 2012, a trend for decrease in power transmission in comparison to 2011 was observed driven by changes in the Company boundaries in connection with conclusion of "direct" contracts with JSC FGC UES by consumers connected to the Unified National Electric Grid (UNEG), which seems to develop in 2013.

The volume of services of IDGC of Volga, JSC on electric power transfer (for comparability of data useful output is given in borders of balance accessory of JSC IDGC of Volga) in the III quarter 2013 made 12,676 million kWh that for 3.57 % is lower, than for the similar period of 2012 and for 0.07 % lower the planned size.

Proceeds from power transmission services for 9 months of 2013 amounted to 39,801 million rubles (VAT exclusive), that is lower planned value on 0.09 % and on 6.02% lower than that for the similar period of 2012.

Proceeds from provision of power transmission services amounted to 10,679 million rubles (VAT excluded) in Q3 2013 that is less than the planned value by 243 million rubles (-2.22%). Proceeds from provision of power transmission services for 9 months 2013 amounted to 31,329 million rubles (VAT excluded) that is less than the planned value by 259 million rubles (-0.82%).

Power losses for the third quarter of 2013 made 629 million kW\*h that goes with the standards approved by the RF Ministry of Energy. Expenses related to loss compensation made 996 million rubles (VAT exclusive). For 9 months of 2013 power losses amounted to 2 588 million kW\*h that conforms to the standards approved by the RF Ministry of Energy. Expenses related to loss compensation for 6 months amounted to 3,669 million rubles (VAT exclusive).

The reasons underlying the above operating results:

Decrease in output to network is connected with an exit of objects of electronetwork economy (the last mile) to the direct contract with FGC UES, JSC

Reduced electric power losses in the grids of IDGC of Volga JSC, have been achieved through implementing comprehensive “Programs for reducing electric power losses” aimed to improve the systems of energy accounting for technical and commercial (billing) purposes.

#### **4.6.1. Analysis of Factors and Conditions Affecting the Issuer's Activity**

Factors and conditions affecting the Issuer's activity and the results of such activity, and outlook for the duration of mentioned factors and conditions:

Power industry reorganization and extensive government regulation of the industry (including charging policy) represent the major factors affecting the power industry and the Issuer's activity.

Factors and conditions that could substantially affect the activity of companies managed by the Issuer include:

- overstatement of announced (contractual) capacity factored in when calculating charges for power transmission compared to the value in a forecast balance sheet of the RF FTS; possible non-payment of customers for contractual capacity factored in when calculating charges;
- decrease in actual power consumption compared to the values budgeted when calculating charges for power transmission services;
- FGC UES, JSC refusal to perform the contracts of use of the facilities of power grid industry (last mile agreements) from January 01, 2011;
- setting limiting charges for power transmission by the Federal Tariff Service of Russia which do not fully reflect financial expenditures of the Company needed to ensure reliable and steady operation and its further growth;
- increasing emergency risk due to physical deterioration of machinery and plant. Physical deterioration and obsolescence of plant and machinery, increased requirements of reliability and safety operation, higher risk of severe accidents related to the destruction of power supply facilities, all call for emphasis on the reliability and safety issues.

These factors are components of the overall development trend in the Issuer's market. In the Issuer's opinion, they could make a lasting effect on the Issuer's activity in the mid-term.

Measures which are being taken by the Issuer and measures which the Issuer plans to take in future in order to minimize the negative impact of factors and conditions affecting the Issuer's activity:

In the Issuer's opinion, the following are the most effective ways to reduce the negative impact of factors and conditions affecting the Company's activity at present and in near future:

- cooperating with customers on formation of the scheduled balances of power applied to charges calculation which take into account the economic interests of the grid company and the participants of the sector of power supply;
- reaching an economically viable level of charges for power sources while striking a balance of economic interests between energy companies and power consumers;
- providing investment-friendly environment in the power industry;
- team working on the discussion of development plan for constituent entities of the Russian Federation to ensure more accurate and precise planning for power industry development;
- increasing the effectiveness of local power industry;
- creating an integrated power grid environment in the regions to increase the reliability of power supply;
- reaching an economically viable level of charges for power sources while striking a balance of economic interests between energy companies and power consumers.

Substantial events/factors which may have a substantially negative impact on the Issuer's achievement of the same or better results in future compared with those achieved for the last reporting period:

- introduction of limiting charges by the Federal Tariff Service of Russia which do not fully reflect

financial expenditures of the Company needed to ensure reliable and steady operation and its further growth;

- continuation of financial and economic crisis in the global and Russian economy for an indefinite period;
- progress of the Russian power industry reorganization;
- increase in prices for component parts, materials and equipment.

Probability of occurrence of such events/factors:

Since these factors are beyond the Issuer's control, the probability of their occurrence is considered by the Issuer as high.

Substantial events/factors which may improve the Issuer's performance, the probability of their occurrence and their duration:

- implementation of long-term projects, attraction long-term investments at minimal cost;
- effective allocation of risks among all participating parties;
- creation of incentives to increase company's effectiveness by cutting down costs and investing in advanced technologies;
- ensuring fair price for power supply services consistent with the reliability and quality of services;
- dramatic improvement of payment discipline of the consumers of power;
- adjusting charges for power supply to economically viable levels to ensure both proper maintenance of fixed assets and investment potential of the industry.

The growth of profit from providing power supply services can be primarily achieved by cutting down costs, minimizing losses through modernization of worn equipment and increasing the volume of services through expansion of facilities.

Actions undertaken by the Issuer and actions which the Issuer plans to undertake in future to use these factors and conditions effectively:

In order to use above mentioned factors and conditions effectively, the Issuer is undertaking and plans to undertake in future the following actions:

- ensuring a steady growth of effectiveness of all organizational components of the Company;
- implementing active investment policy aimed at the modernization of deteriorated electrical equipment, development of the power industry and commissioning of new facilities.

Measures which are being taken by the Issuer and measures which the Issuer plans to take in the future in order to minimize the negative impact of factors and conditions affecting the Issuer's activity:

In order to minimize the negative impact of factors and conditions affecting the Issuer's activity, the Issuer is undertaking and plans to undertake in the future the following actions:

- modernization of fixed assets;
- prevention of non-payment by power consumers;
- tightening of financial controls and reduction of costs.

The major factors influencing dynamics of revenue from services in transfer e/e, the following is:

- volume of useful output of the electric power,
- size of average output tariff for electric power transfer.

The revenue size from rendering of services in electric power transfer for 9 months of 2013 made 28,859,981 thousand rubles that is lower the fact of 9 months of 2012 on 5,153,182 thousand rubles (15%). Main reasons for decrease of the volume of income are given in art.3.2.2.

It should be noted that the tariff-formation on a main type of activity of the Issuer, has the following key features, making essential impact on volume of the received income:

- tariffs for all branches were set basing upon long-term regulation parameters with account of RAB "overload" since 2012

on all branches tariffs are established proceeding from long-term parameters of regulation for 2011-2015 with application of a method of profitability of the invested capital (RAB);

application of single (boiler) tariffs for services in transfer of electric energy for consumers of the respective regions considering not only necessary gross revenue (NVV) of the Issuer, but also NVV of other regional distribution grid companies and JSC FGC UES.

Thus, the income on a main type of the activity, the changes of a tariff received for the account on electric power transfer, considers schemes of mutual settlements of the Issuer with other network companies proceeding from the accepted scheme of "boiler".

Besides the factors influencing change of revenue from rendering of services in transfer to the electric power, the volume of the expenses relating on cost of rendered services makes on a main type of activity of the Issuer as considerable impact.

The main specific weight in cost of the realized services is the share of variable expenses (the purchased electric power on compensation of losses in distributive networks, fee of the network companies, JSC FGC UES fee) which specific weight following the results of 9 months of 2013 made – 59 %, following the results of 9 months of 2012 made 61%./

Units of measurements, RUR

Indicators	2012, 9 months	2013, 9 months	Deviations	
			Absolute	%
Cost value	31,407,806	33,765,240	2,235,434	7.5
Variable expenses	19,006,862	19,737,407	730,545	3.8
Among them are:				
Purchased electric power	7,229,242	6,728,280	-500,962	-6.9
Expenses on purchased electric power on compensation of losses	7,229,242	3,373,933	- 3,855,309	- 53.3
JSC FGC UES services	7,344,956	7,650,392	305,435	4.2
services of distribution grid companies	4,432,663	5,358,735	926,072	20.9
Conditional and constant expenses	12,400,944	14,027,833	1,626,889	13.1

Costs of the purchased electric power acquired for compensation of losses in distributive networks, following the results of the 9 months of 2013 developed in the sum of 3,373,933 thousand rubles that is on 3,855,309 thousand rubles or 53.3 % lower than fact of the similar period of 2012, including.

- due to decrease of losses on 129.8 million kWh (5 %) the increase in expenses made 165,002 thousand rubles;
- at the expense of decrease of an average tariff for the losses, caused, on the one hand, implementation of the scheme of return of the sums of «cross subsidizing» to the marketing organizations through a tariff of purchase of losses, on the other hand purchase of losses at the non-controllable price of the wholesale market of the electric power – expenses fall on 3,690,307 thousand rubles.

Costs of JSC FGC UES fee for 9 months of 2013 made 7,650,392 thousand rubles that are on 305,435 thousand rubles. or 4,2 % lower than the fact of the corresponding period of 2012 including for the account:

- cutting of costs associated with UNEG losses by 191,623 thousand rubles due to the decrease in UNEG losses by 117.6 million kWh (7.83%) originated from lower limit established for UNEG losses (- 0.84%) and 5.15% lower average tariff for UNEG losses.
- increase in costs associated with UNEG operation and maintenance by 180,278 thousand rubles originated from higher tariff for UNEG operation and maintenance (+10.5%) and lower customer contract demand (-7%) in the result of step-by step refusal from last-mile contracts with FGC UES.
- increase in cost of load losses on 66,466 thousand rubles (+6%).

Growth of expenses for services of the distribution grid companies for 9 months of 2013 in relation to similar period of 2012 made 926,072 thousand rubles that is explained by increase in the number of Territorial Grid Organizations in the regions of presence of the Issuer.

## 4.6.2. Competitors of the Issuer

*No changes observed in the information during the reporting period*

## V. Detailed Information on Members of the Issuer's Management Bodies, the Issuer's Financial and Business Supervisory Bodies and Brief Information on the Issuer's Personnel (Employees)

### 5.1. Information on the structure and responsibilities of the Issuer's Management Bodies

*No changes observed in the information during the reporting period*

### 5.2. Information on members of the Issuer's Management Bodies

#### 5.2.1. The Issuer's Board of Directors (Supervising Board)

Full name: *Prokhorov, Egor Vyacheslavovich (Chairman)*

Year of birth: *1982*

Education: *University Degree*

*St-Petersburg State University (2004)*

Positions held within the Issuer or in other companies for the past 5 years and at present, including part-time positions:

Period		Company name	Position
