Note 1. Background

(a) The Group and its operations

Open joint-stock company "Interregional Distribution Grid Company of Urals and Volga" was set up on 28 February 2005 based on Resolution no. 28p of the Russian open joint-stock company RAO "United Energy Systems of Russia" (hereafter, "RAO UES") dated 24 February 2005. On 14 August 2007 OJSC "Interregional Distribution Grid Company of Urals and Volga" was renamed to open joint-stock company "Interregional Distribution Grid Company of Urals" (hereafter, the "Company" or "IDGC of Urals").

The Company's registered office is located at 140, Mamina-Sibiryaka street, Ekaterinburg, Russia, 620026.

The principal activities of the Company and its subsidiaries (together referred to as the "Group" or "IDGC of Urals Group") are as follows:

- electricity transmission and distribution,
- connection services,
- · electricity sales,
- other (repair, construction, maintenance, rent and transportation services).

The Group includes following subsidiaries and the associate company:

	30 June 2011	31 December 2010

OJSC "Kurganenergo" (53.81% ownership and 49.00% voting rights)	49.00	49.00

In January 2011 OJSC "IDGC of Urals" formed the subsidiary OJSC "Energoservisnaya kompaniya Urala" with share capital amounted to RUR 5 million. The principal activities of OJSC "Energoservisnaya kompaniya Urala" are the provision of maintenance services for electricity grids.

As at 30 June 2011, the Government of the Russian Federation owned 52.7% shares of JSC "IDGC Holding" which in turn owned 51.52 % of the Company.

The Group includes investment in associate OJSC "Kurganenergo" with ownership rights of 53.00% and voting rights of 49.00%, which allows the Group to exercise significant influence, but not control, over the financial and operating policies of the associate.

The Government of the Russian Federation directly affects the Group's operations through indirect control and state tariffs on electricity transmission and connection services.

(b) Russian business environment

The Group's operations are primarily located in the Russian Federation. Consequently, the Group is exposed to the economic and financial markets of the Russian Federation which display characteristics of an emerging market. The legal, tax and regulatory frameworks continue development, but are subject to varying interpretations and frequent changes which together with other legal and fiscal impediments contribute to the challenges faced by entities operating in the Russian Federation. The consolidated interim condensed financial statements reflect management's assessment of the impact of the Russian business environment on the operations and the financial position of the Group. The future business environment may differ from management's assessment.

Note 2. Basis of preparation

(a) Statement of compliance

These consolidated interim condensed financial statements have been prepared in accordance with IAS 34 Interim Financial Reporting. They do not include all of the information required for full annual financial statements and should be read in conjunction with the consolidated financial statements of the Group as at and for the year ended 31 December 2010.

(b) Basis of measurement

These consolidated interim condensed financial statements are prepared on the historical cost basis except for property, plant and equipment that was revalued as at 1 January 2007 by an independent appraiser to determine deemed cost as part of adoption of IFRS.

(c) Functional and presentation currency

The national currency of the Russian Federation is the Russian rouble ("RUR"), which is the Group companies' functional currency and the currency in which these consolidated interim condensed financial statements are presented. All financial information presented in Russian roubles has been rounded to the nearest thousand.

(d) Use of judgments, estimates and assumptions

The preparation of consolidated financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these consolidated interim condensed financial statements, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those applied to the consolidated financial statements as at and for the year ended 31 December 2010.

Note 3. Summary of significant accounting policies

The accounting policies applied by the Group in these consolidated interim condensed financial statements are the same as those applied by the Group in its consolidated financial statements as at and for the year ended 31 December 2010.

Note 4. Revenue

During the six months ended 30 June 2011 revenue amounted to RUR 31,618,413 thousand (six months ended 30 June 2010: RUR 29,231,529 thousand) and included revenue from electricity transmission in the amount of RUR 24,416,403 thousand (six months ended 30 June 2010: RUR 22,788,634 thousand), revenue from electricity sales in the amount of RUR 6,326,050 thousand (six months ended 30 June 2010: RUR 5,522,046 thousand), revenue from connection services in the amount of RUR 717,766 thousand (six months ended 30 June 2010: RUR 532,493 thousand) and other revenue in the amount of RUR 158,194 thousand (six months ended 30 June 2010: RUR 388,356 thousand).

Note 12. Capital commitments

Capital commitments

As at 30 June 2011 the Group has outstanding commitments for the acquisition and construction of property, plant and equipment of RUR 3.9 billion (31 December 2010: RUR 3.0 billion).

Note 13. Contingencies

Insurance

The insurance industry in the Russian Federation is in a developing state and many forms of insurance protection common in other parts of the world are not generally available. The Group does not have full coverage for its stations, business interruption, or third party liability in respect of property or environmental damage arising from accidents on Group property or relating to Group operations. Until the Group obtains adequate insurance coverage, there is a risk that the loss or destruction of certain assets could have a material adverse effect on the Group's operations and financial position.

Litigation

During the current period the Group was involved in the number of court procedures (both as a plaintiff and as a defendant) arising in the originally course of business. In the opinion of management, there are no current legal proceedings or other claims outstanding, which could have a material adverse effect on the results of operation, financial position or cash flows of the Group and which have not been accrued or disclosed in these consolidated interim condensed financial statements.

Taxation

The taxation system in the Russian Federation continues to evolve and is characterised by frequent changes in legislation, official pronouncements and court decisions, which are sometimes contradictory and subject to varying interpretation by different tax authorities. Taxes are subject to review and investigation by a number of authorities, which have the authority to impose severe fines, penalties and interest charges. A tax year remains open for review by the tax authorities during the three subsequent calendar years; however, under certain circumstances a tax year may remain open longer. Recent events within the Russian Federation suggest that the tax authorities are taking a more assertive and substance-based position in their interpretation and enforcement of tax legislation.

These circumstances may create tax risks in the Russian Federation that are substantially more significant than in other countries. Management believes that it has provided adequately for tax liabilities based on its interpretations of applicable Russian tax legislation, official pronouncements and court decisions. However, the interpretations of the relevant authorities could differ and the effect on these consolidated interim condensed financial statements, if the authorities were successful in enforcing their interpretations, could be significant.

OJSC IDGC of Urals

Notes to the consolidated interim financial statements for six months ended 30 June 2010

(in thousands of Russian Roubles, unless otherwise stated)

While management believes that it has adequately provided for tax liabilities based on its interpretation of current and previous legislation, the risk remains that tax authorities of the Russian Federation could take differing positions with regard to interpretive issues. This uncertainty may expose the Group to additional taxation, fines and penalties that could be significant.

Environmental matters

The Group and its predecessors have operated in the electric power industry in the Russian Federation for many years. The enforcement of environmental regulation in the Russian Federation is evolving and the enforcement posture of government authorities is continually being reconsidered. The Group entities periodically evaluate their obligations under environmental regulations.

Potential liabilities might arise as a result of changes in legislation and regulation or civil litigation. The impact of these potential changes cannot be estimated but could be material. In the current enforcement climate under existing legislation, management believes that there are no significant liabilities for environmental damage.

Other contingencies

Management believes that all Group's sales arrangements are generally in compliance with the Russian legislation regulating electric power transmission. However, based on uncertainty of legislation that regulates the lease of Unified National Electricity Network property by the Group ("last-mile") there is a risk that customers may challenge that the Group has no legal ground to invoice them and hence recognize revenue for electric power transmission services provided via leased "last-mile" grids and courts agree with the customers' view. The potential amount of such claims could be significant, but cannot be reliably estimated as each claim has individual legal circumstances and respective estimation should be based on variety of assumptions and judgments, which makes it impracticable. The Group did not recognize as at the reporting date any provision for those actual and potential claims as it believes that it is not probable that related outflow of resources or decrease of benefits inflow will take place. The Group believes that expected changes in legislation will further reduce the level of risk.

Note 14. Financial risk management

The Group's financial risk management objectives and policies are consistent with those disclosed in the consolidated financial statements as at and for the year ended 31 December 2010

Note 15. Events subsequent to the reporting date

In July 2011 the Group entered into 3 credit line agreements with JSB "Sberbank of Russia" for the amount of RUR 2,31 billion and bearing interest at 7.70% with the maturity in 2016.
